Product Overview

產品外觀 \ Produktübersicht \ Présentation du produit \ Resumen del producto \ 製品概要 \ Обзор продукта \ 产品外观

- 1. 5.25" Bay
- 2. 3.5" Bay
- 3. ODD eject button
- 4. 3.5" HDD bay cover button
- 5. Hard disk drive LED
- 6. Power LED
- 7. Power button
- 8. USB 3.1 Gen 1 ports
- 9. USB 2.0 ports
- 10. MIC-in
- 11. Headphones
- 12. AC power socket
- 13. Serial port (optional)
- 14. LAN ports
- 15. DisplayPort
- 16. Clear CMOS button
- 17. HDMI 2.0 port
- 18. USB 3.1 Gen 2 ports
- 19. Microphone jack
- 20. Front speaker out (L/R) port
- 21. Line-in port
- 22. Perforation for optional WLAN

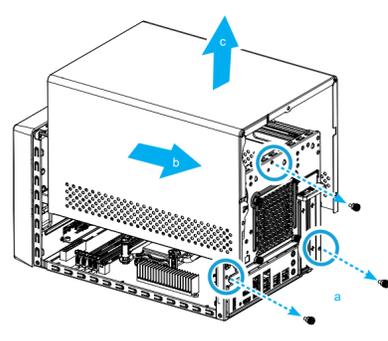

Hardware Installation

硬體安裝 \ Hardware Installation \ Installation du matériel \ Instalación de hardware \ ハードウェアのインストール \ Установка оборудования \ 硬件安装

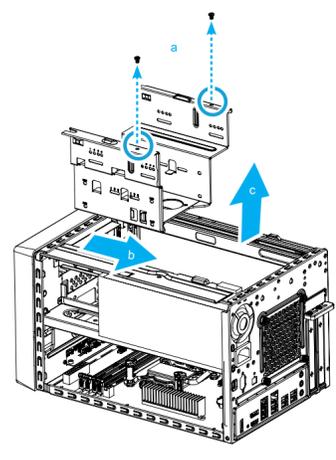

A. Begin Installation

For safety reasons, please ensure that the power cord is disconnected before opening the case.

- 1. Unscrew 3 thumbscrews of the chassis cover.
- 2. Slide the cover backwards and upwards.

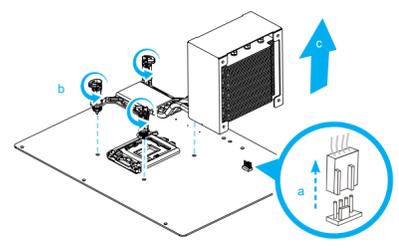

- 3. Unfasten the rack mount screws and remove the rack.

The product's colour and specifications may vary from the actually shipping product.

B. CPU and ICE Module Installation

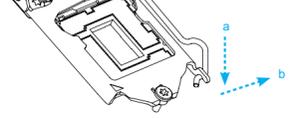

- 1. Unfasten the ICE fan thumbscrews on the back of the chassis.
- 2. Unfasten the four ICE module attachment push-pins and unplug the fan connector.

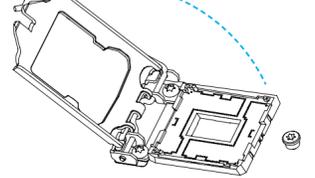

This CPU socket is fragile and can easily be damaged. Always use extreme care when installing a CPU and limit the number of times you remove or change the CPU. Before installing the CPU, make sure to turn off the computer and unplug the power cord from the power outlet to prevent damage of the CPU.

Follow the steps below to correctly install the CPU into the motherboard CPU socket.

- 4. Unlock and raise the socket lever.

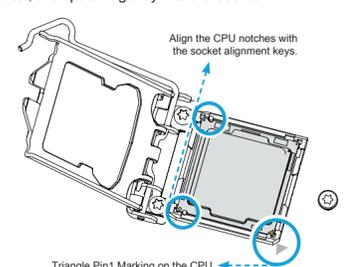

- 5. Lift the metal load plate on the CPU socket.

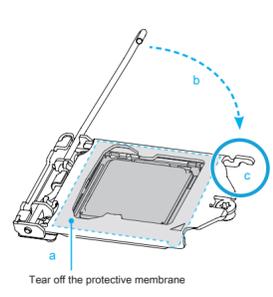

DO NOT touch the socket contacts. To protect the CPU socket, always use the protective socket cover when the CPU is not installed.

- 6. Please orientate the CPU correctly and align the CPU notches with the socket alignment keys. Make sure the CPU sits perfectly horizontal, then push it gently into the socket.

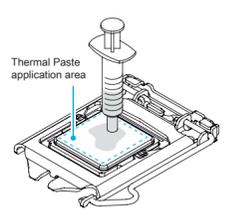

Please be aware of the CPU orientation, DO NOT force the CPU into the socket to avoid bending of pins on the socket and damage of CPU!

- 7. Tear off the protective membrane from the metal load plate. Close the metal load plate, lower the CPU socket lever and lock in place.

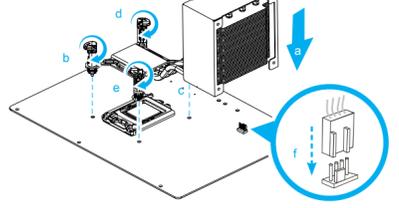

- 8. Spread thermal paste evenly on the CPU surface.

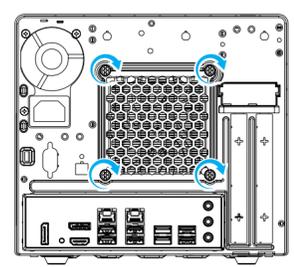

Please do not apply excess amount of thermal paste.

- 9. Screw the ICE module to the motherboard. Note to press down on the opposite diagonal corner while tightening each push-pin.

- 10. Connect the fan.

- 11. Fasten the Smart Fan to the chassis with the four thumbscrews.

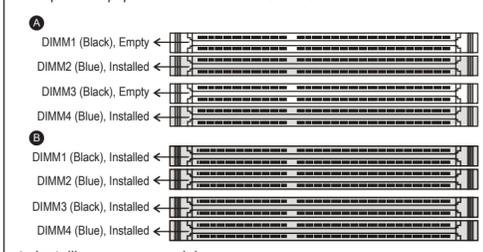

C. Memory Module Installation

Guidelines for Memory Configuration Before installing DIMMs, read and follow these guidelines for memory configuration.

Make sure that the motherboard supports the memory. It is recommended that memory of the same capacity, brand, speed, and chips is used. (Go to Shuttle's website for the latest memory support list.) Memory modules have a foolproof design. A memory module can be installed in only one direction. If you are unable to insert the module, reverse direction.

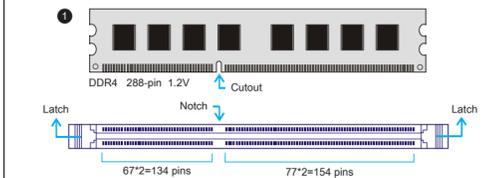

Population rules of dual channel memory modules In Dual-Channel mode, the memory modules can transmit and receive data with two data bus lines simultaneously. Enabling Dual-Channel mode can enhance system performance. The following illustrations explain the population rules for Dual-Channel mode.

Installing memory modules DDR4 and DDR3/DDR2 DIMMs are not compatible to one another or other DDR DIMMs. Be sure to install DDR4 DIMMs on this motherboard only. Follow the steps below to correctly install your memory modules in the memory sockets.

- 1. Unlock the DIMM latch.
- 2. Align the memory module's cutout with the notch of the DIMM slot. Slide the memory module into the DIMM slot.

A DDR4 memory module has a cutout, so it only fits in one direction.

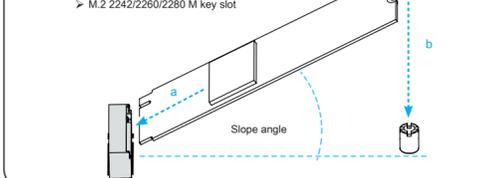

- 3. Check if the latches are closed and if all memory modules are firmly installed.

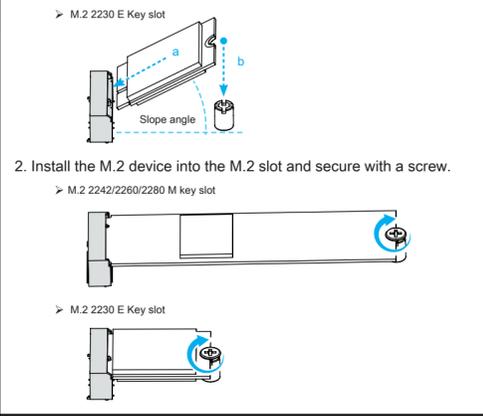

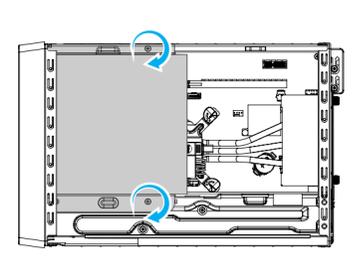

Repeat the above steps to install additional memory modules, if required.

D. M.2 Device Installation

- 1. Locate the M.2 key slots on the motherboard.

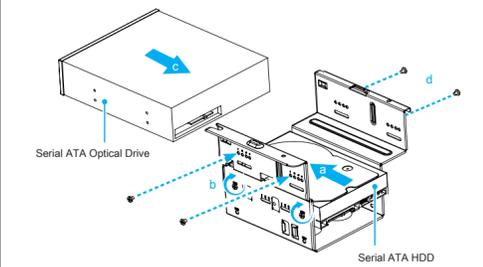

- 6. Place the rack in the chassis and refasten the rack.

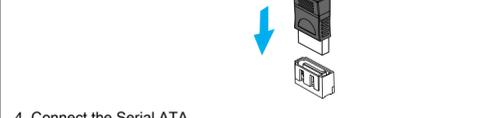

E. Installation of Drives

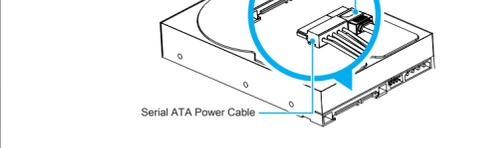

- 1. Loosen the purse lock and separate the Serial ATA and power cables.
- 2. Please place the HDD or SSD and the optical drive in the rack and secure with screws from the sides.

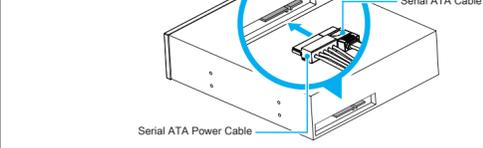

- 3. Connect the Serial ATA cable to the motherboard.

- 4. Connect the Serial ATA and power cables to the HDD.

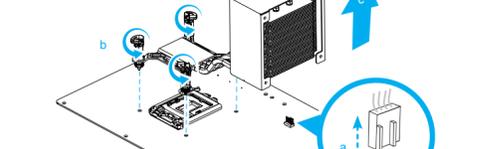

- 5. Connect the Serial ATA and power cables to the optical drive.

F. Installation of Expansion Cards

- 1. Unfasten the expansion slot bracket screws. Remove the back panel bracket and put it aside.

The maximum size acceptable for display cards is 273mm(L) x 98mm(H) x 38mm(D).

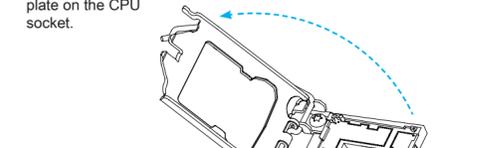

- 2. Install the PCIe x4 / PCIe x16 card into the PCIe x4 / PCIe x16 slots.

Secure the bracket.

- 3. Replace the cover and refasten the thumbscrews, then connect the power cord.

Complete.

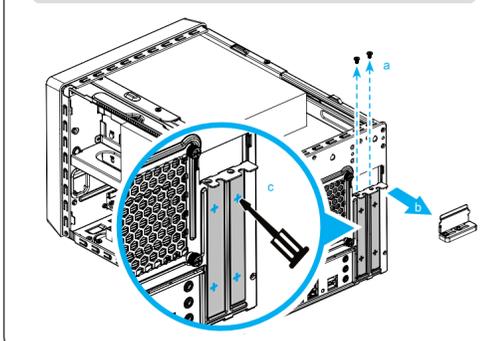

Please press the "Del" key while booting to enter BIOS. Here, please load the optimised BIOS settings.

F. Installation of Expansion Cards

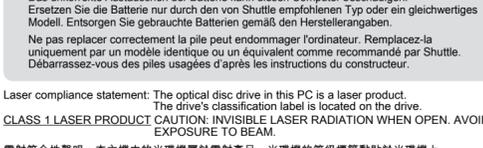

- 1. Unfasten the expansion slot bracket screws. Remove the back panel bracket and put it aside.

The maximum size acceptable for display cards is 273mm(L) x 98mm(H) x 38mm(D).

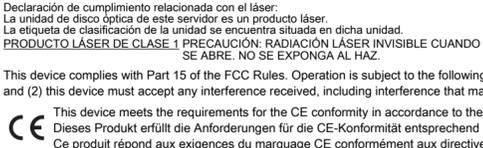

- 2. Install the PCIe x4 / PCIe x16 card into the PCIe x4 / PCIe x16 slots.

Secure the bracket.

- 3. Replace the cover and refasten the thumbscrews, then connect the power cord.

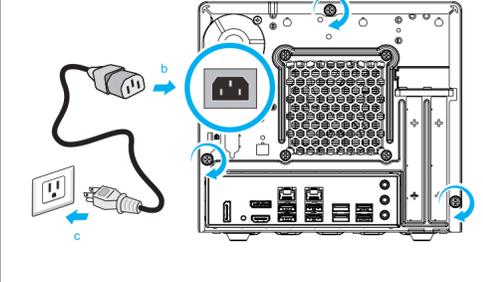

Complete.

G. Complete

- 1. Replace the cover and refasten the thumbscrews, then connect the power cord.

Complete.

Please press the "Del" key while booting to enter BIOS. Here, please load the optimised BIOS settings.

Safety Information

Incorrectly replacing the battery may damage this computer. Replace only with the same or equivalent as recommended by Shuttle. Dispose of used batteries according to the manufacturer's instructions.

更換電池方式錯誤可能會損壞本電腦以及引發爆炸、火災或其他危險。僅能依 Shuttle 的建議，以相同或同等之電池更換。請依照製造商的使用說明處理廢電池。

Das unkonkrete Austauschen der Batterie kann diesen Computer beschädigen. Ersetzen Sie die Batterie nur durch den von Shuttle empfohlenen Typ oder ein gleichwertiges Modell. Entsorgen Sie gebrauchte Batterien gemäß den Herstellerangaben.

Ne pas remplacer correctement la pile peut endommager l'ordinateur. Remplacez-la uniquement par un modèle identique ou un équivalent comme recommandé par Shuttle. Débarassez-vous des piles usagées d'après les instructions du constructeur.

La sustitución incorrecta de la batería puede dañar este equipo. Sustituya la batería únicamente por una igual o equivalente recomendada por Shuttle. Deseche las baterías usadas según las instrucciones del fabricante.

バッテリーを間違っしてセットすると、このコンピュータが損傷する原因となります。交換する際は、Shuttle が推奨するバッテリーと同じものまたは同等のものだけを使用するようにしてください。使用済みバッテリーは、メーカーの指示に従って処分してください。

Неправильная замена батареи может привести к повреждению компьютера. Батарея должна со ответствовать стандарту производителя Shuttle или быть идентичной предыдущей. Утилизация использованной батареи должна следовать инструкции производителя.

更換電池方式錯誤可能會損壞本電腦。僅能依 Shuttle 的建議，以相同或同等之電池更換。請依照製造商的使用說明處理廢電池。

Laser compliance statement: The optical disc drive in this PC is a laser product. The drive's classification label is located on the drive.

CLASS 1 LASER PRODUCT CAUTION: INVISIBLE LASER RADIATION WHEN OPEN. AVOID EXPOSURE TO BEAM.

雷射符合性聲明：本主機中的光碟機屬於雷射產品。光碟機等級標識貼於光碟機上。BEIM OFFENDES GERÄTES AUSSTREITEN. VERMEIDEN SIE ES, DEN STRAHLEN AUSGESETZT ZU WERDEN.

Etat de conformité du laser: Le lecteur de disque optique dans ce PC est un produit à laser. Le label de classification du lecteur laser est situé sur le lecteur.

PRODUIT LASER DE CLASSE 1 ATTENTION: RADIATIONS LASER A L'OUVERTURE. EVITER L'EXPOSITION AU FAISCEAU LASER

Declaración de cumplimiento relacionada con el láser: La unidad de disco óptica de este servidor es un producto láser. La etiqueta de clasificación de la unidad se encuentra situada en dicha unidad.

PRODUCTO LÁSER DE CLASE 1 PRECAUCIÓN: RADIACIÓN LASER INVISIBLE CUANDO SE ABRE. NO SE EXPONGA AL HAZ.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device meets the requirements for the CE conformity in accordance to the currently valid EU directives. Dieses Produkt erfüllt die Anforderungen für die CE-Konformität entsprechend der aktuell geltenden EU-Richtlinien. Ce produit répond aux exigences du marquage CE conformément aux directives européennes actuellement en vigueur.

All bundled parts, power cord included, shall not be used without this product. 電源ケーブル等、すべての付属品は本機以外ではご使用になれません。

レーザー準拠声明：このサーバーの光ディスクドライブは、レーザー製品です。ドライブの分類シールは、ドライブに貼ってあります。

クラス1レーザー製品 注意：開けると目に見えないレーザー照射にさらされます。ビームへの暴露を避けてください。

Декларация соответствия лазера: Оптический привод на этом ПК представляет собой лазерный продукт. Маркировка диска находится на диске.

ЛАЗЕРНЫЙ ПРОДУКТ КЛАССА 1 ПРЕДУПРЕЖДЕНИЕ: НЕВИДИМОЕ ЛАЗЕРНОЕ ИЗЛУЧЕНИЕ, КОГДА ОТКРЫТО. Избегайте воздействия радиации.

雷射符合性聲明：本主機中的光碟機屬於雷射產品。光碟機等級標識貼於光碟機上。

CLASS 1 雷射產品 注意：打開時會有不可見的雷射光放射，避免曝露於雷射光束下。

注意：仅适用于在非热带气候条件下安全使用，在热带气候条件下使用时，可能有安全隐患。

注意：仅适用于海拔 2000m 以下安全使用，在海拔 2000m 以上使用时，可能有安全隐患。

注意：允许产品使用的最高环境温度为 40°C。

注意：用错误型号电池更换会有爆炸危险，务必按照说明处用充用的电池。
